

I have listened to K-LOVE, FM 91.9, for over 2 years. I starting supporting K-LOVE financially within this last year due to my desire to continue receiving broadcast in my local and surrounding areas. My radio is always set to 91.9 to allow me to separate myself from the general negative world. I receive my Christian fullfillment from K-LOVE and have told others of the joy this station gives me. I do not want the broadcast service to be interupted in anyway by potential LPFM new services. I believe KLOVE is a station that anyone in my local area can find satisfaction and christian fullfillment. KLOVE promotes family values, which I believe people need to be constantly reminded of. Our world pulls people away from family orientated events to the busy corporate work stress. KLOVE keeps our lives on the right track, reminding people what is really important. Please do not allow LPFM signals replace KLOVE's current broadcast areas. KLOVE is financially supported by those who believe...many people believe KLOVE is an important broadcast program. Thank you for your time. Julie Watson
